REMARKS

APR 19 2007

Applicant has filed the present Amendment and Response in reply to the outstanding Final Official Action of February 21, 2007, and the Applicant believes the Amendment and Response to be fully responsive to the Final Official Action for the reasons set forth below in greater detail.

Applicant respectfully submits new Claims 41-43 for examination. Claim 41 further limits the external power supply. Claim 42 is directed to a feature of the drive power supply section. Claim 43 is directed to a feature of the external reception apparatus. No new matter has been added to the application by way of the aforementioned amendments. For example, support therefor can be found in Figure 13 and pages 29-31. Claims 37-40 stand rejected under 35 U.S.C. § 102 (e).

Applicant would like to thank the Examiner for taking the time to speak with Applicant's representative in a telephone interview. During the interview, Applicant's representative argued that Uchiyama et al., U.S. Pat. Pub. 2004/0111011 fails to teach a drive power supply section including a battery for supplying a driving power to at least the communication section, as recited in Claim 37. The Examiner agreed and stated that the rejection will be withdrawn and a new search conducted.

Accordingly, Applicant respectfully requests that the Examiner withdraw the rejection of Claims 37-40 pursuant to 35 U.S.C. § 102 (e) as the reference fails to teach or suggest each and every limitation of the claims as required for anticipation. The reference does not teach an internal battery.

Accordingly, based upon the foregoing, Applicant submits that the application is in condition for allowance. Applicant also notes that Applicant is willing to have a telephone interview with the Examiner prior to the Examiner issuing an Official Action to expedite prosecution of this matter. Applicant respectfully requests that the Examiner call the undersigned, Applicant's attorney, at the following telephone number: (516) 742-4343.

Respectfully submitted,

-Seth Weinfield
